Church Revitalization Conference  
for leaders of the Church of God in the Carolinas

## Reconnecting with God's Mission

Does the church feel spiritually unproductive in the area of mission? It's easy for churches to become bogged down with programs, routines and maintenance. In the process the essential nature of being the Body of Christ within the world is sometimes eclipsed.

ThinkNEXT is a conference for Church of God pastors and leaders who are ready to move beyond the past and the present, and are willing to accept the challenge of fully engaging in God's mission and being more effective as a church. Doing so requires new knowledge, skills and behaviors.

Bring a team from your church and participate in this intensive event. You will be equipped with new insights and encouraged by your interaction with leaders from other churches across the Carolinas.
